

## 2025 Creative Catalyst Fellowship Application Questions

1. Full Name
2. Contact Information
3. Provide a brief artist's bio that includes any fellowship experiences you have previously been involved with. (Maximum word count 250).
4. Select one central theme for your project:
  - **In it together**: All of our fates are linked. This theme is inspired by the importance of challenging stereotypes and standing firm for all of us, not just our own. For example, we recognize that the AAPI community has experienced racism and oppression, but has also benefited from racism against Black people. When we support full equality for Black people, we support everyone's chance at equality.
  - **Belonging**: For AAPIs, belonging is about a sense of community, home, agency, and the essential right for our communities to flourish. Belonging is a counterweight to racism and violence, and can advance a vision for the inclusion and recognition of the ways AAPI communities have shaped and contributed to this country.
  - **Voting Together**: We lead by caring about each other and putting that care into action. This theme is inspired by the importance of advocacy, voting, and becoming engaged in the issues that impact the lives of AAPIs and all of us. How will your vote show how you are caring for your community?
5. Briefly describe the selected theme and why it is important to you (Maximum word count 350).
6. Describe your proposed project, including your timeline and the medium you will use. (Maximum word count 150-200).
